

Activity 1

INCLUSION

🕒 Complete this activity and answer the guiding questions.

Gather building materials and your friends, family, or teammates for a collaborative building activity. Each person starts with the same number of pieces (they do not need to be the same) and builds something creative.

Even though you may have started with similar building materials, the end results can look very different.

WE RESPECT EACH OTHER
AND EMBRACE OUR
DIFFERENCES.

GUIDING QUESTIONS

- Compare your builds.
How are they different?
- How are they similar?
- Think about how this relates to inclusion. Other people have different ideas and experiences than you. How can we celebrate our differences?
